1 Glossary

Short name	Description
ADC	Analog-Digital converter
BLE	Bluetooth Low Energy
DIO	Digital Input Output
EBNF	Extended Backus–Naur form. Notation syntax.
EEPROM	Electrically Erasable Programmable Read-Only Memory
GUID	Globally Unique Identifier
LED	Light emitting diode
LSB	Least significant byte
MITM	Man-in-the-Middle
MM	Maintenance Mode
MSB	Most significant byte
octet	Unit of digital information consisting of eight bits. Also called a byte.
OM	Operation Mode
PWM	Pulse Width Modulation
SID	Simatec identifier
UUID	Universally Unique Identifier
PCB	Printed Circuit Board
